

BRAND GUIDELINES

AethCraft

Logo usage, color, and type, in one place.

Generated with LogoCreator

THE LOGO

Logo & clear space

Clear space

Always keep clear space around the logo equal to at least 25% of its height (shown dashed). Keep other logos, text, and busy imagery out of this zone so the mark stays legible.

Minimum size

To stay sharp, never reproduce the logo smaller than 24px tall on screen, or 10mm tall in print. Use the icon-only mark when space is tighter than that.

Placement

Give the logo a calm, uncluttered background. On photos or color, use the on-dark or on-light variant so it always reads cleanly.

USAGE

Logo variants

On light

Default. Light or white backgrounds.

On dark

Dark or photographic backgrounds.

Transparent

Overlays, merch printing, watermarks.

COLOR

Palette

PRIMARY

#214577

RGB 33, 69, 119

CSS var --brand-1

BRAND 2

#FDFDFD

RGB 253, 253, 253

CSS var --brand-2

BRAND 3

#4F6C93

RGB 79, 108, 147

CSS var --brand-3

BRAND 4

#D3DAE3

RGB 211, 218, 227

CSS var --brand-4

BRAND 5

#375885

RGB 55, 88, 133

CSS var --brand-5

BRAND 6

#7289A8

RGB 114, 137, 168

CSS var --brand-6

These values ship as brand-colors.css and brand-colors.json in this kit. Use the primary for key actions and accents; keep large surfaces neutral.

TYPE & USAGE

Typography

Aa

Pair the logo with a clean, geometric sans-serif. This guide is set in Helvetica; Inter, Satoshi, or a system UI font are good companions. Use a bold weight for headings and a regular weight for body text.

Do

- Keep the clear space and minimum size.
- Use the supplied color and mono variants.
- Scale the logo proportionally.
- Choose the variant that contrasts with the background.

Don't

- Stretch, squash, or rotate the logo.
- Recolor it outside the palette.
- Add shadows, outlines, or other effects.
- Place it on a busy background with no contrast.
